EXPERIENCE

January 2018 - February 2018 **Starcoders**
PHP Developer
Sofia, Bulgaria/Remote

- Worked on a stack of interconnected web apps providing high-load end user application.
- Made corrections and added missing steps to Confluence pages regarding initial technical setup
- Introduced new team members and helped them build vagrant/docker environment
- Slack, screen sharing, pair programming
- Agile process - backlog refining, demo meetups, slack instead of daily standups
- International team.

August 2017 - September 2017 **Vedesoft**
Backend developer

Remote

- Worked on a web app backend
- Participated in gathering requirements from official documents of Bulgarian Ministry of Education
- Developed custom JSON API with PHP/MySQL
- Designed relations and foreign key constraints
- Worked with front-end team in to pass them JSON data properly formatted
- Office was Jira and Slack

December 2016 - August 2017

Cloud Faces

Web developer with PHP

Sofia, Bulgaria

- Worked on the web components of factory for mobile apps
- Mostly did backend, but occasionally did frontend tasks as well.
- Research, Support & development of REST API (Epiphany, Lumen).
- Failed to migrate the API to new framework and not afraid to admit it
- Laravel "frontend" to call the APIs.
- Dev environment configuration (LAMP stack).
- Helped less experienced members write more clean and maintainable code (and learned a lot from them)

October 2016 - December 2016

Webstep

Web developer

Remote

- Worked on a web-based application (internal company project)
- Full-stack Laravel: Eloquent, Blade, jQuery, AJAX
- Skype/voice communication

August 2015 - June 2016

Programista / SevOne

Web developer

Plovdiv, Bulgaria

- Worked for outstaffing company (Programista) and was dedicated a big client (SevOne) for 6 months
- Supported a multi-language (in both meanings) Network monitoring system, running on Linux-based virtual machines
- The 'front-end' application was written in PHP, MySQL, ExtJS
- Made fixes for different versions of the application
- Volunteered to do regression tests when QA team needed hand
- Scrum training (workshop) by [Michael James Scrum](#)
- Internal training in Laravel

March 2014 - March 2015

Opencode Systems

Service Creation Engineer

Sofia, Bulgaria

- Together with team created core services for mobile operators worldwide
- Designed small databases (10 tables or so) in concordance with database normalisation rules
- Suggested improvements and gathered details for Software Requirement Specifications
- Vanilla Javascript, MySQL, PHP, XML
- Waterfall process, overtime on demand
- Created Visio diagrams and other documentation for all my services

July 2011 - December 2013

Gameloft

Web developer

Sofia, Bulgaria

- Worked in E-commerce team
- Development and bug-fixing of WAP shops
- Wrote scripts to resubscribe lost customers
- Moved e-shop to new template (with help of more experienced team member when stuck)
- Substituted team members to support/fix of their code
- Sales monitoring and troubleshooting problems
- PHP, MySQL, xHTML
