### MOTIVATION

Your position seems like a good match to me because I'm interested in expanding my knowledge and experience in web crawling, digital marketing/SEO. I have years of proven experience as a backend developer and basic experience with web crawling. Ever since university I've been interested in regular languages and grammars and what we can or cannot do with them.

### EDUCATION

Oct 2016 - Ongoing	Faculty of Mathematics and Informatics, Plovdiv University <i>Master in Software Technologies</i>
Oct 2008 - Sep 2015	Faculty of Mathematics and Informatics, Sofia University <i>Bachelor of Software Engineering</i>
Sep 2003 - May 2008	High School of Natural Sciences and Mathematics, Sliven <i>Mathematics and English Language</i>

### EXPERIENCE

January 2018 - February 2018	Starcoders <i>PHP Developer</i> <i>Sofia, Bulgaria/Remote</i> <ul style="list-style-type: none"><li>• Worked on a stack of interconnected web apps providing high-load end user application.</li><li>• Slack, screen sharing, pair programming</li><li>• Agile process - backlog refining, demo meetups, slack instead of daily standups</li><li>• International team.</li></ul>
August 2017 - September 2017	Vedesoft <i>Backend developer</i> <i>Remote</i> <ul style="list-style-type: none"><li>• Worked on a web app backend</li><li>• Developed JSON API with PHP/MySQL</li><li>• Office was Jira and Slack</li></ul>
